

# **MICC Customer Journey**

We will assist you every step of the way

\* AHQ = Alternative Hospital Quarantine and ASQ = Alternative State Quarantine which is quarantine within a hotel

\*\* All treatments are tailored according to the individual's cancer and therefore the treatment time will vary, however an indicative time frame would be 12 weeks - 8 weeks in Bangkok and 4 weeks in Koh Samui

\*\*\* Metavectum Tumor Test: A sample of the patient's tumor and blood is sent to the Metavectum laboratory in Germany for testing. This determines the individual tumor metabolism and provides information for optimal individualized therapy."

# INTRODUCING MICC TEAM

## Sarah P. Wolff MICC Customer Relations

**Your first step into MICC**, Sarah will assist you with any questions you have about facilities and services. She will then assist and arrange a medical consultation to speak with one of our specialists and developing your initial treatment plan to begin your MICC journey.

## Piraya Arunchayanon (Mint) MICC Medical Coordinator

Mint will assist in pre-arrival process including arranging visa and quarantine process. She will work with you and our medical team in scheduling medical consultations and treatments. She will be **your main point of contact throughout your program with MICC.**
